YALODÉ HAIR GROWTH is scientifically formulated Product of bio-active Ingredients based on the latest scientific research.

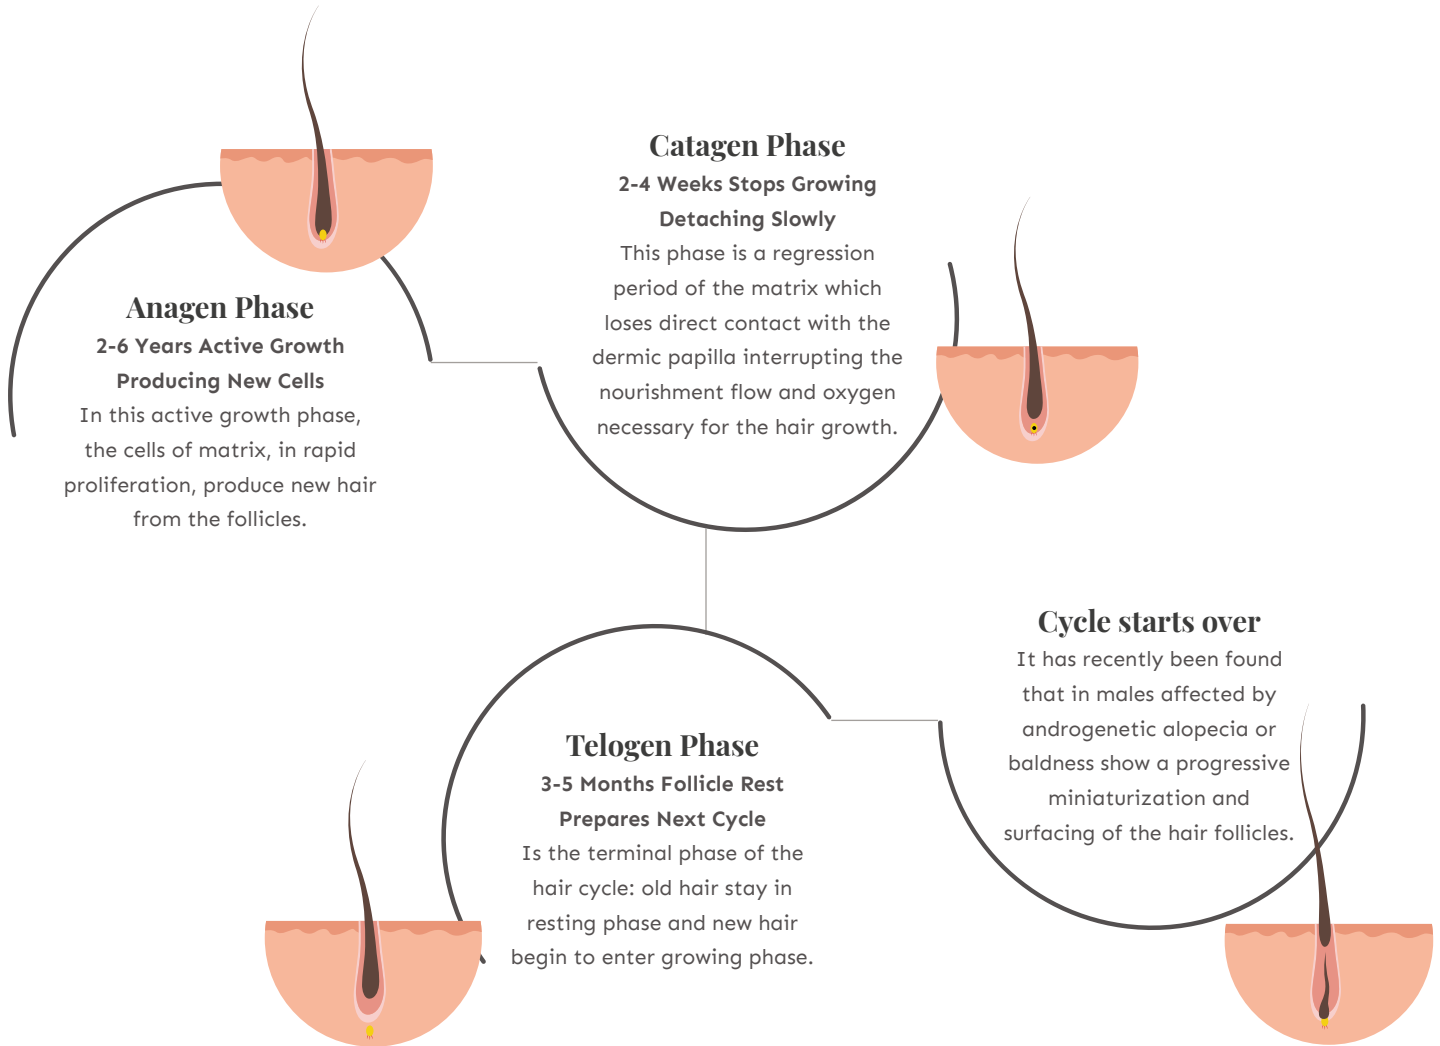

It has been developed by R&D Sialor Lab. with the specific exclusive complex **PROB2 HANNUR™**, essential component of **YALODÉ HAIR GROWTH**, powerful association of **Procyanidin B2 with Hyaluronic acid**, that has been clinical proven to nourish thinning hair and promote existing hair growth from the inside.

YALODÉ HAIR GROWTH supply vital nutrients to the hair follicle to prolong the Anagen (growing) phase of the Hair Growth Cycle, nourishing thinning hair and promoting hair growth. During Hair Growth Cycle, **Hyaluronic acid**, specialized component Proteoglycans, play an important role to help normalize and maintain the overall life and function of the hair follicles.

Hair Growth Stimulation % (relative to control)

The Hair Cycle.

FORMULA DETAILS

Gastro resistant film coating ensures the active Ingredients Bioavailability and Efficacy

Procyanidin B2

Procyanidin B2 is a natural polyphenol compound, powerful stimulator of hair epithelial cell growth. It specifically promotes hair epithelial cell growth, activates specific regions of the hair follicle into the growing phase, and causes the follicular hair cycle to revert to the Anagen Phase from Telogen Phase, and its effective in curing patterns baldness. Procyanidin B2 increases of almost 80% of hair diameter and increases in the total number of hairs, without any side effects.

Hyaluronic acid

Hyaluronic acid is a substance that is naturally occurring in the body. It can promote a healthy scalp and increased hair growth. It moisturizes the scalp from within and prevents hair from falling out prematurely from the hair follicles. Hyaluronic acid not only can increase hair growth but also increases the diameter of each hair, giving hair more volume.

Taurine

Taurine for combatting hair loss and promoting hair growth by protecting the hair follicles from damage. Taurine is a beta-amino acid that is useful to counter androgenetic alopecia, limiting the process of follicular atrophy. Its one of the main constituents of hair, contributing to the formation of Keratin.

Biotine

Biotine promotes the formation of Keratin and increases the thickness of hair and nails.

Organic Silicium

Organic Silicium is the most bioavailable form of Silicium that improves hair texture and health. Higher Silicon content in the hair fiber results in a lower rate of hair loss and increased brightness. Nail are also positively by the presence of Silicon.

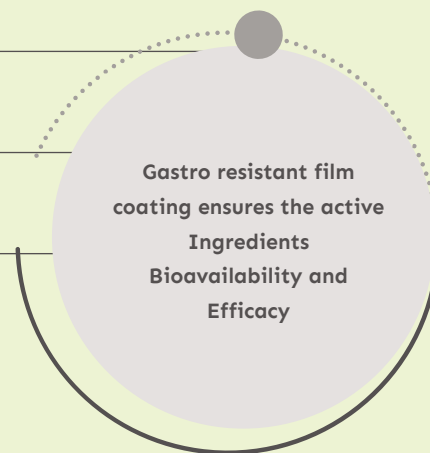

Zinc

Zinc it is a potent inhibitor of hair follicle regression and contributes to the production of Keratin.

Selenium

Selenium an essential trace element that plays a role in protection from oxidative damage as well as hair follicle morphogenesis.

Active Ingredients	1 Tablet
Annurca Apple ex. as Procyanidin B2	400 mg 1.000 mcg
Hyaluronic acid	40 mg
Taurine	75 mg
Organic Silicium	5 mg
Biotine	0,20 mg
Zinc as Gluconate	5 mg
Selenium as Selenium Methionine	50 mcg

HAIR REPAIR
COMPLEX WITH
PROCYANIDIN B2
ANNURCA APPLE

**VISIBLE
RESULTS IN:**

**Taking tablets regularly over
the long term is beneficial**

INDICATIONS

- **Hair loss and hair growth disorder of unknown origin.**
- **Deterioration of hair structure:** split hair, brittle and dull.
- **Hair loss (alopecia)** can have many causes, among others:
 - alopecia due to **side effects after medications,**
 - alopecia due to **chemotherapy/radiation treatment,**
 - alopecia due to **hormonal causes/imbalance,**
 - alopecia following **pregnancy.**
- **Nail growth disorders.**

YALODÉ HAIR GROWTH

stimulates HAIR and NAIL REGROWTH NATURALLY

RECOMMENDED DOSE

2 tabs per day, away from meals, to promote the assimilation of the active Ingredients for at least 2 months.

For the next 2 months, the dose is reduced to 1 tab per day, to be taken away from meals.

BENEFITS

- In the prevention of hair loss
- More hair resistance
- Well tolerated Product
- Scientifically formulated
- Clinical proven
